

PECB Certified ISO 28000 Lead Implementer

Master the implementation and management of Supply Chain Security Management Systems (SCSMS) based on ISO 28000

Why should you attend?

In today's rapidly evolving environment, organizations face significant security challenges to protect their assets, operations, and reputation. The ever-changing security risks can pose serious threats to organizations; therefore, it is crucial for organizations to establish an effective security management system.

The PECB ISO 28000 Lead Implementer training course helps you develop the necessary competencies to establish, implement, maintain, and continually improve a security management system (SeMS). This training course aims to equip you with an in-depth knowledge of ISO 28000 requirements, as well as the best practices and approaches to security management.

After successfully completing the training course, you will be able to help organizations establish appropriate security processes and controls that proactively ensure the security of the environment and contribute to the creation and protection of value.

After completing the training course, you can sit for the exam. If you pass the exam, you can apply for the "PECB Certified ISO 28000 Lead Implementer" credential. The internationally recognized "PECB Certified ISO 28000 Lead Implementer" certificate demonstrates that you possess the professional capabilities to implement security management systems based on the requirements of ISO 28000.

Who should attend?

The ISO 28000 Lead Implementer training course is intended for:

- Individuals responsible for maintaining and improving the security environment in which organizations operate
- Professionals wishing to obtain in-depth knowledge of the requirements of ISO 28000
- Individuals responsible for maintaining conformity to the ISO 28000 requirements
- Expert advisors seeking to master the implementation of an SeMS
- Members of an SeMS implementation team
- Individuals seeking to pursue a career in security management
- Security management consultants
- Management representatives seeking to master the SeMS implementation process

Course agenda

Duration: 5 days

Day 1 | Introduction to ISO 28000 and initiation of an SeMS implementation

- Training course objectives and structure
- Standards and regulatory frameworks
- Fundamental concepts and principles of security management
- Initiation of the SeMS implementation
- The organization and its context

Day 2 | Implementation plan of an SeMS

- SeMS scope
- Leadership and organizational structure
- Security policy
- Risks, opportunities, and security objectives
- Resources and competence
- Communication and awareness

Day 3 | Implementation of an SeMS

- Documented information
- Operational planning and control
- Risk assessment and treatment
- Security strategies
- Security plans

Day 4 | SeMS monitoring, continual improvement, and preparation for the certification audit

- Monitoring, measurement, analysis, and evaluation
- Internal audit
- Management review
- Treatment of nonconformities
- Continual improvement
- Preparation for the certification audit
- Closing of the training course

Day 5 | Certification Exam

Learning objectives

By the end of this training course, the participants will be able to:

- Explain the fundamental concepts and principles of security management
- Interpret the requirements of ISO 28000 requirements for an SeMS from the perspective of an implementer
- Initiate and plan the implementation of an SeMS based on ISO 28000 by utilizing PECB's IMS2 Methodology and other best practices
- Support organizations in operating, maintaining, and continually improving their SeMS based on ISO 28000
- Prepare organizations to undergo a third-party certification audit

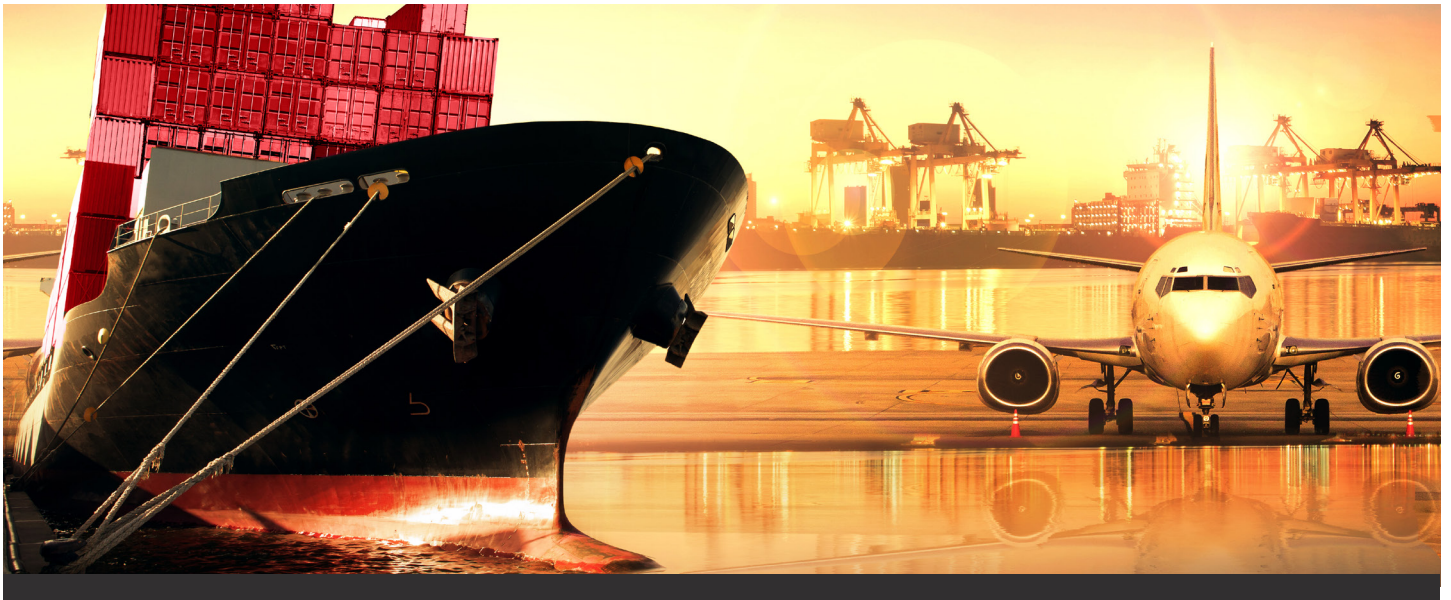

Examination

Duration: 3 hours

The "PECB Certified ISO 28000 Lead Implementer" exam fully meets the requirements of the PECB Examination and Certification Program (ECP). It covers the following competency domains:

- Domain 1** | Fundamental principles and concepts of an SeMS
- Domain 2** | Initiation of an SeMS implementation
- Domain 3** | Planning of an SeMS implementation based on ISO 28000
- Domain 4** | Implementation of an SeMS based on ISO 28000
- Domain 5** | Evaluation of the performance of an SeMS based on ISO 28000
- Domain 6** | Continual improvement of an SeMS based on ISO 28000
- Domain 7** | Preparation for an SeMS certification audit

For specific information about exam type, languages available, and other details, please visit the [List of PECB Exams](#) and the [Examination Rules and Policies](#).

Certification

After passing the exam, you can apply for one of the credentials shown in the table below. You will receive a certificate as soon as you fulfill all the requirements related to the selected credential.

For more information about ISO 28000 credentials and the PECB certification process, please refer to the [Certification Rules and Policies](#).

Credential	Exam	Professional experience	SeMS project experience	Other requirements
PECB Certified ISO 28000 Provisional Implementer	PECB Certified ISO 28000 Lead Implementer exam or equivalent	None	None	Signing the PECB Code of Ethics
PECB Certified ISO 28000 Implementer	PECB Certified ISO 28000 Lead Implementer exam or equivalent	Two years: At least one year in security management	200 hours	Signing the PECB Code of Ethics
PECB Certified ISO 28000 Lead Implementer	PECB Certified ISO 28000 Lead Implementer exam or equivalent	Five years: At least two years in security management	300 hours	Signing the PECB Code of Ethics
PECB Certified ISO 28000 Senior Lead Implementer	PECB Certified ISO 28000 Lead Implementer exam or equivalent	Ten years: At least seven years in security management	1,000 hours	Signing the PECB Code of Ethics
